

## How many banks have a park?

Everybody has a parking lot. We have one of those as well. But we also have a park. You know trees, and grass, and benches. It's kind of normal to run into your bank and run out. Why would you really want to hang out at your bank? Well, we kind of think you might. So we have created a park for just sitting, a lobby with a fireplace and fresh coffee, and even a courtyard garden. And while we understand that these days everyone is in a hurry, we also believe sometimes, just sometimes, there are those places and friendships that connect us and call us to just hang out and slow down. We have the fast lane. But we also have the slow one.

Come join us on Thursday, October 29 at 10 a.m. as we unveil our peanut memorial in loving memory of Mr. Trawick, fondly remembered as "The Peanut Man." He sold peanuts on the corner where our new office stands. In his memory, we will, of course, be serving peanuts.
